

PLC / SCADA TRAINING

BMA NORWICH PARK

Project Overview:

Automation IT was contracted to supply Citect training, Control Logix5000 and SLC500 training to 25 electrical staff from Norwich Park Coal Mine.

Details:

The courses consisted of five groups of five with each course running over a four day period.

The first two days concentrated on the SCADA content with a detailed look at Citect and its integration with PLCs.

On the third day an overview of PLCs using Allen Bradley's Control Logix 5000 platform and the SLC500 was presented.

On the final day the staff were given a lab exercise to integrate both the Citect SCADA and ControlLogix5000 into a common project.
